WORLD OF RADIO HITLIST
Hi Glenn, My latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Updated UTC offset notations for change to DST on 5 April for New Zealand (RNZ Nat. & RNZ Pac.)
2) Canada - Bible Voice Broadcasting: Updated links to current (A-26) frequency schedule (Thanks to Alexander Miatlikov in WOR iog mail list)
3) Germany - Media Broadcast Services (MBR): Updated link to current (A-26) frequency schedule (Thanks to Alexander Miatlikov in WOR iog mail list)
4) India - AIR/Akashvani: Updated links (Thanks to Alokesh Gupta in WOR iog mail list)
5) Romania - R Romania Int: Updated links to current (A-26) frequency schedules
6) Spain - REE: Updated link to current (A-26) frequency schedule (Thanks to Alokesh Gupta in WOR iog mail list)
7) USA - WRMI: Updated links for A-26 (guerogram link not yet updated to A-26)

The next update is scheduled for early May. Best wishes and 73, Alan Roe

DX/SWL/MEDIA PROGRAMS has also been updated April 4:
http://www.worldofradio.com/dxpgms.html

** ARGENTINA. 28460 USB, Apr 7 at 2222, LU4HH, Radio Club Córdoba, CQ 10 in Spanish, calls himself ``operador 1,080``, no name! QRZ.com: ``LU4HH Argentina flag Argentina, RADIO CLUB CORDOBA, DOMINGO ZIPOLI 1866, CORDOBA CD 5000 5009, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA. 28420 USB, Apr 8 at 2217, LU4JP, QSOs in Spanish, English. QRZ.com: ``LU3JP Argentina flag Argentina, robercampeon@gmail.com, ROBERTO ALCIDES "ROBERTO" KUTTEL, PASO 494 - tel 3455-416126, VILLAGUAY, ER 3240, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA. 28420 USB, Apr 8 at 2220, LU9CNS/D calling CQ POTA = Parks On The Air. QRZ.com: ``LU9CNS Argentina flag Argentina, Nicolas "Nico" Solop, Capdevila 3312, Buenos Aires C1431FKN, Argentina`` -- significance of the /D not clear, but shown among his alternates, also /S, /J, /Q. His park for 2026-04-08 is: Reserva Ecológica Vicente López, which is just up the coast from Bs As (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Mon Apr 6 at 2304, RAE via WRMI, not in Portuguese, Chinese, Japanese, or even Spanish, but --- English! S9+40/45 into Georgia SDR. In multi-lingual ID reel, music, 2306 announcer says they are on 5850 kHz, which they would be if this were at 2230, but for half an hour? I really haven`t tried to hear it then. He speaks very conversationally, not like reading a script. 2309 more music and then a talk until 2321 as about an ecological zone in Bs As. Music break again. 2327 intro a Norton Lecture at Harvard in 1967y by Jorge Luís Borges about metaphor in literature, continuing past auto timesignal at 2330. English was one of his languages, but he speaks rather haltingly here (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Apr 7 at 2300, RAE via WRMI S9+20/30, well, well, finally in Portuguese as supposedly the only language for this transmission. Previews several topix starting with DX.com.ar, DX news from Arnaldo Slaen. That starts at 2303, but program first called `Atualidade DX`, then `DX.com.ar`. Will this purvey news, or olds? I try to copy all the items. Colombia, 6010, tentatively LV de tu

Conciencia around 05 UT. Romania, explaining how they have alternate backup frequencies, sources include Faceebookee. Mentions three or four times and frequencies, unclear what language? But none match A26 RRO in HFCC. Germany, R. Mi Amigo, K-K on 6085 around 0658 with English ID; Radio Europe 24 on 6150 Datteln at 0614 and 1723. ``Reach Beyond Shortwave`` not ``Australia``. A number of times in Japanese, *A24* not 26 season mentioned, giving away this is really a biyear old? And several broadcasts from a 100 kW site near Pequim, did not catch what. Madagascar: TWR Talata in Urdu around 1445 on 15440: no such broadcast currently. Myanmar: good news, reactivated 6165 around 0130 in vernacular, from Pyin Oo Lwin: WRTH says Thazin Radio at that location, while Aoki says Thazin R is at Naypyidaw. Perú active stations: 4775 Tarma, 5025 Quillabamba, 4810 Chazuta, 4750 Huanta, 4820 Senda Cristiana. Most operate from around 1000/1030 to 2300/2330. This segment ends at 2311, then multi-lingual ID reel. BTW, DX.com.ar goes to a login with password page, no other info about how to contact or get one! If it`s so restricted, why mention it to a global audience? (Glenn Hauser, OK, WOR)

** ASCENSION. Re: ``6180, Mon March 30 at 0519, sped-up dialog in African language, S9+10/20. HFCC shows BBC Hausa daily except Sundays. Brasil would not be on at this hour, but watch out: not in HFCC (Glenn Hauser, OK, WOR)``

``Good morning (my time zone), Glenn, as always, I am very thankful for your efforts to keep the stream of news on international radio flowing. Please don't mind a comment on one of your items. We were both listening to 6180 kHz on Monday, but it was not the BBC but GTA which was reported by you/in World of Radio to be produced by former VoA employees:
260401 6180 0500 0104 ASC GTA, Hausa, nx: Nigeria 35433 HjBi;
0500-0529 Uhr: 6180 kHz (ASC 125 kW, 65°) Mo-Sa 260330 6180 0500 3003 ASC GTA, Hausa, nx: Iran-war 35433 HjBi = Dr. Hansjörg Biener``

HFCC shows this is by ENC ENC = Encompass, does not name either BBC or Global Talk America as original source. EiBi does show Global Talk America; missing from Aoki (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28515 USB, April 6 at 0059, two Ozzies ragchewing QSO about railroads where one or both of them work, mentioned Queensland and NSW. One quite stronger than the other and off-pitch a bit; never any IDs for ~5 minutes. One of only two phone signals readable on 10m. Wonder if they were close enough for groundwave or far enough for skip (Glenn Hauser, OK, WOR)

** BRAZIL. 28270.5, Apr 8 at 2208, dash and VVV PY4MAB, only 10m beacon audible and very weak; WGB list: ``28270.5 PY4MAB - Pocos {sic} de Caldas MG BRA GG68re - #0/1/3 (07 Apr 2026) Note: VVV ID + grid + BCN + 5" carr - Cobra 142 gtl mod. ant vert 10W`` (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB, April 2 at 0704, Trenton Military uttering ``Shearwater, Shearwater, no report received`` 4 times in a row before moving on to somewhere that was received. Shearwater is in Nova Scotia (Glenn Hauser, OK, WOR)

** CHINA [and non]. 17490, 17640, 17655, 17665, 17800, 17810, 17890, April 5 at 0213-0214, JBA carriers mostly with Doppler flutter, likely China, and slightly stronger one on 17840 sounds Chinese. That last one listed as CRI Beijing site to S America. In EiBi they all correlate with some domestic or external service from China except 17810 NHK. See also UnIDs 21645 etc. (Glenn Hauser, OK, WOR)

** COLOMBIA. 5910, Apr 5 at 0219, S9+10/20 of orchestral music, interrupted by ``running water`` ute blast. Presumed Alcaraván Radio

as now active. Reported about same time by Ron Howard: ``COLOMBIA. 5910, Alcaraván Radio (presumed), 0153+ UT, April 5, heard via new Kiwi SDR remote at Tamesis, Colombia; choir singing "We Shall Be Saved"; from 0157+ was surprised to hear a long reading entirely in English of the Song of Solomon. My remote audio with one minute of song and seven of English - https://app.box.com/s/5x459ch7pb8pbn5qzuwp1iko3pzqi7kv Ron, Monterey, California`` My next check of 5910 at 0709, S7/S8 of familiar operatic aria (Glenn Hauser, OK, WOR)

** COLOMBIA. 5910, still hearing a JBA signal April 6 overnight. Ron Howard explains: ``Re: [WOR] Colombia: Alcaraván Radio (5910 kHz.) in English - April 5 (UT) Hi Glenn - Thanks very much to Rafael Rodríguez R. for his informative reply to my inquiry. Appreciate his help to understand what is happening at the station. [My bold emphasis - Ron]{between ** and ** here} "Hi Ron, The signal returned to the air on March 31st. The transmitter is still being adjusted after repairs. The format is new, with **100% English-language programming**. For now, it's Jubilee Bible readings and music; other programs are planned for later. The decision to implement the new format was made by Martin Stendall, but it's not clear to me what the objective is. For now, the name Alcaravan Radio remains the same. Rafael Rodríguez R., Bogotá, Colombia"`` (Glenn Hauser, OK, WOR)

** COLOMBIA. 28473 USB, Apr 8 at 2215, HJ3AJN calling CQDX in English. QRZ.com: ``HJ3AJN Colombia flag Colombia, Adib Jalel Nassiff, Calle 17A #7B-57, Funza 250020, Colombia`` (Glenn Hauser, OK, WOR)

** CUBA. 5025, April 2 at 0657, S9+28 of dead air in Spanish as usual from R. Rebelde. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, April 4 at 0635, no signal from R. Rebelde, failing even to provide dead air! Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, April 5 at 0215, S9+20/30 of dead air in Spanish from R. Rebelde; what else is old? Still at 0655, S9+25/40. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 5025, April 6 at 0049, S9+10/20 of dead air in Spanish from R. Rebelde; what would Fidel say? SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, April 3 at 1933, RHC here, not 11760 or 11880, dramatic dialog in Spanish with music bits, like TV soundtrack; must be relaying Cubavisión feed or Multivisión -- but cuts off air at 1937*. So much for English. Was monitoring via Georgia remote, gone before I checked the strength, but sufficient. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9710, April 5 at 0232, S8/S9 of dead air from RHC, English or Spanish? At 0250 trace? of modulation, Spanish? Or is it an understation? Nothing else scheduled now. Still at 0708, S9+20 of DA. SAWA. Or are they really conveying some inaudible intelligence? Surely not (Glenn Hauser, OK, WOR)

** CUBA. 11760, April 5 at 0251, S9+10 of dead air from RHC; still DA with windhowl at 0703, S9+25/35, Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, April 6 at 0528, RHC S6/S8 deadair except for windhowl, SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, April 7 at 0636, RHC JBM in Spanish? S6/S7, SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140V, April 7 at 1853, RHC deadair or maybe JBM, with carrier wobbling rapidly -- not such a defect noted before. It`s them, not my receiver, not happening with other stations. 1930 recheck, at first not wobbling, then wobbling at variable rates. Something`s always wrong at RHC. Meanwhile, 11880 OK with S7 music at 1856 (Glenn Hauser, OK, WOR)

** CUBA. 11880, Apr 8 at 2256.7*, RHC cuts off just as I tune to it; I think it were modulating. At 2257 I find that 11950 is on in Spanish, S9+10/20 but modulation cutting; 11760 has also just gone from Spanish to deadair. SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 7335, 7365, 7435, April 5 at 0252, R. Martí on three 7 MHz frequencies at once, unusual, instead of one or two at a time; and also 6030; overkill? Cuba is still not bothering to jam it at all; would rather run dead air on RHC, Rebelde channels (Glenn Hauser, OK, WOR)

** CUBA [non]. 7335, April 6 at 0051, R. Martí on only one 40m channel, then found also on 11930, 13570, 13720 (Glenn Hauser, OK, WOR)

** CUBA [non]. 6030 nor any of the 7 MHz channels, April 8 at 0620 no signals from R. Martí. Presumably closed about 0600*. Earlier:

Steven Luce, Houston, said, ``Glenn, the three 41 meter Radio Marti frequencies you mentioned (7335, 7365 and 7435) are all registered as operating 01-05 UT along with 6030. 7365 is dropped at 0500 while the other three together remain on through the night until 1000.``

I replied, ``I don`t think any of them have really been running past 0500. Glenn``

Walt Salmaniw replied, ``I beg to differ, gents. At 05:27, all three 41m channels are booming into Masset tonight: 7335, 7365 and 7435. And of course, 6030 on 49 m. They all continue past 05:30 UTC. 73, Walt``

And Mauno Ritola, WRTH replied: ``They were extended recently to -0600, but I don't think any of them transmit past that. 73, Mauno`` (Glenn Hauser, OK, WOR)

** CUBA [non]. 9490, Mon Apr 6 at 0144 and I think earlier in hour, no signal from R. República via FRANCE: and missing from EiBi. Aoki still shows 0100-0200 daily on 9490. RMI websked shows 02-03 UT Sat/Sun/Mon, but I did not check after 02, so maybe still on. HFCC shows daily 01-02 & 02-03 (Glenn Hauser, OK, WOR)

** CHILE. 28475 USB, Apr 7 at 2202, CA3PHX working a VE3 in Spanish, bigsig and says 400 watts, then CQDX and working Japan, JL8PZO? in English, says his name is Mauro-san. QRZ.com: ``CA3PHX Chile flag Chile, Mauricio "Mauro" Pacheco, La Florida, santiago chile. +56984082037, Chile`` - page is full of selfies and equipment photos (Glenn Hauser, OK, WOR)

** EASTER ISLAND. 28450 USB, Apr 8 at 2210, CE0Y/PJ4EL with rapid contacts including W5WSK in OK, PU3SX, NH6XO, mentions Rapa Nui. QRZ.com has only outdated info about previous DXpedition: ``CE0Y Easter Island flag Easter Island, DX-pedition to Easter Island, Easter Island "26/11, 3/12" Isla de pascua, Isla de Pascua, Easter Island`` and PJ4EL is not on the list of operators then. Nor on the PJ4EL page anything about Easter: ``PJ4EL Bonaire flag Bonaire, Erwin, Erwin Lemmers, Kaya Aleksandrit, Kralendijk, Bonaire, Dutch Caribean {sic}, Bonaire`` (Glenn Hauser, OK, WOR)

** FRANCE. 21680, April 6 at 1846, JBA talk, OSOB: RFI French to Central Africa at 18-19; per EiBi also in use at 09-10, 12-13, 15-16, 17-18 (Glenn Hauser, OK, WOR)

** GERMANY. Current frequency usage of SW Radio Gold, Germany, as Andy reminds me: 6160 only: Fri/Sat/Sun 07-15. Both 6160 & 3975: daily 15-22. 3975 only: daily 22-24 UT. This of course affects the different WOR times every day of the week (Glenn Hauser, OK, WOR)

** GUATEMALA. 28500 USB, April 6 at 2214, TG9AHM calling in English, CQDX, and working someham in Tulsa. QRZ.com: ``TG9AHM Guatemala flag Guatemala, EMMANUEL H. MIERES G. (Manny), 19 CALLE 10-38 ZONA 11 COL. MARISCAL, BOSQUES DE MARISCAL, CIUDAD DE GUATEMALA 01011, Guatemala`` - has to charge $5 for paper QSLs only due to high postal costs. The local OG&E high line noise level is now S9+5 on 10m (Glenn Hauser, OK, WOR)

** INDONESIA [non]. 28450 USB, April 6 at 0147, YB7ONC the call heard more than once but I think was the one being called by a guy with a heavy accent apparently in the Philippines, maybe ending in -DI; said he was aiming toward America, so this was off the back; anyhow, per QRZ.com: ``YB7ONC Indonesia flag Indonesia, RASULAN ALI SANGGAR, Jl. Mangga RT/RW 006/002 Kel.Candi, Kec.Kumai, Kab.Kotawaringin Barat, Kalimantan Tengah, 74181, Indonesia`` The YB7 does appear in DXheat/cluster but not at this time nor on this frequency (Glenn Hauser, OK, WOR)

** IRAN [non]. 15750.247v, April 8 at 1443, JBA signal direct on 15750.3, so I tune in UTwente where measured, at 1454, S9+10/15 with heavy bubble jamming; if you put up with it and understand Persian, it`s still readable, i.e. Iran International TV via BULGARIA, which is sometimes on 15730v but nothing there now. Mostly talk past 1500 with no break; 1526 some music, much more talk. I let it run on and on. About 1606 jamming stops and now it`s loud and clear around 15750.300. At 1611 sounds like a ponderous proclamation, more and more mostly talk past 1710. Scheduled until 1900, and already gone when I check a few minutes prior (Glenn Hauser, OK, WOR)

** JAPAN. 21500, April 5 at 0208, non-Chinese talk, with Doppler flutter -- it`s the new NHK Japanese for CIRAF 14 & 16, direct from Yamata at 02-04, 81 degrees, replacing the France relay at same time on 6105 which was as good as a N American service, but no English. Quite weak on 21500, but nice to see a rare 13m broadcast to anywhere in the WHem (Glenn Hauser, OK, WOR)

** JAPAN. 15280, April 5 at 0700, 3+1 timesignal, final pip higher and resounding, and Japanese. It`s NHK for SE Asia (Glenn Hauser, OK, WOR)

** MALAYSIA. 15295, April 5 at 0701, JBA carrier, maybe RTM Nasional FM. Have had a hard time hearing this direct. Could also be CNR jam/SOH (Glenn Hauser, OK, WOR)

** MALI. 5995, April 4 at 0630, ORTM is on again after missing a few days. Others also report some but not all of the CRI relays are back on air. What happened? Would like to hear/confirm token English for a few minutes Saturday around 1850 on 5995, but no nearby Kiwis now, not even Fuerteventura, Canary Islands, which used to get it. Wait, there it is now, EA8/DF4UE. I guess its activity depends on when the German ham be visiting. The display is very different from other Kiwis. At 1735, ORTM is VG still on day frequency 9635. At 1759 ID in French and off*; about *1759.5, 5995 comes on with music, but drops off at 1801. Next check at 1825 is on with music and het of about 1 kHz, from? Retune at 1847 anticipating English circa 1850, so drops off air again

at 1851* just in time to disavailablize English, if any! Off until *1900 sharp back on with music, 1902 ID in French with FM frequency only, music, another offage 1904*-*1908 music, 1908 another French ID only for FM four-score-and twelve MHz. Even while off, the `het` is still heard, or rather a tone, but nothing else is listed around now on 5995 in Aoki, EiBi, HFCC. In HFCC not even ORTM but the CRI relays are. So much for that (Glenn Hauser, OK, WOR)

** MEXICO. 730, Mar 31 at 0643, ``La Más Picuda`` as I tune across, so XEHB Hidalgo del Parral, Chihuahua, seems to be the dominant XE here, 50/1 kW - I bet they are on daypower or close to it (Glenn Hauser, OK, WORLD OF RADIO 2341) {this was incorrectly dated March 30}

** MEXICO. 730, April 3 at 0646, one more time, ``La Más Picuda`` dominating, XEHB in Hidalgo del Parral, Chihuahua (Glenn Hauser, OK, WOR)

** MEXICO. 800 kHz, April 7 at 0642 distorted QRM to KQCV OKC. Almost always there at night but relogged for the record, traced months ago to XEERG, Ojo de Agua NL near Monterrey, 10/2.5 kW (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 9700, April 3 at 1453, surprise strong S7/S9 direct, SSOB except for 9930 WTWW, exotic music of ringing and singing; 1459 ID as ``RNZ National`` and 1500 ``news at 4``. certainly much better than 7440 had been. From 1553 listening via KFS on SW antenna, fading down some, S5/S7 to 1559*; then there is a JBA carrier on 7440. Quite contrary to current websked, 9700 supposed to be before and after these hours, not during:
10:59-12:58 9700 AM Solomon Islands, PNG Mon-Fri
10:59-12:58 9700 AM Pacific Sat-Sun
12:59-16:50 7440 AM Pacific Daily
16:51-18:58 9700 AM / 9780 DRM Pacific / Cook Is, Samoa,Tonga Sun-Fri
16:51-18:58 9700 AM Pacific Sat
(Glenn Hauser, OK, WOR)

** NEW ZEALAND. 9700, Sat Apr 4 at 1453 past 1500, S7/S9 in English, so RNZP again here contrary to own sked. By 1625 check of KFS on SW antenna, it`s off, but rather on 7440 with good S7/S9 signal in strange choral music. Own websked shows 7440 going to 9700 at 1551, not the other way around! Something`s really wrong at Rangitaiki, NZ is about to go off summer time, back to UT plus only 12, so that may entail more transmission changes, certainly shifts in programmme times; like `Mediawatch` at 2106 UT Sat on 17675, ex-2006 on 15720 (Glenn Hauser, OK, WOR)

** NEW ZEALAND. `Mediawatch` is not on the RNZ/RNZI/RNZP schedule for 2106 UT Saturday April 4, which should be its time shifted back to standard; so I monitor the webcast. They say it`s off for this holiday week, but will resume next week; on 17675, so likewise Sunday at 1010 on 9700 (Glenn Hauser, OK, WOR) But:

** NEW ZEALAND. 11725, Apr 5 at 0702, RNZP S9+20/25 talking about Easter. Now the daily 07-11 frequency (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 7440, Sun Apr 5 at 1450, JBA carrier, and no 9700, unlike past two days during this block, back where RNZP supposed to be per own sked, but quite a loss for beyondhearers (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6935 AM, Apr 5 at 0222, ``pumping`` music, S9+20, off by 0233 when similar thing heard on 9980 DSB; these say 6935 AM is Liquid Radio:
https://www.hfunderground.com/board/index.php/topic,161319.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6915 AM, Apr 5 at 0223, S9+10 pirate music. These say it`s R. Free Euphonia:
https://www.hfunderground.com/board/index.php/topic,161320.0.html
https://www.hfunderground.com/board/index.php/topic,161329.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9980 DSB, Apr 5 at 0233, S9+20/30 of ``pumping`` music like what was just on 6935 AM, now off. This signal is very unusual: LSB and USB, but NO carrier! Upon first hitting it I wondered if WWCR had reactivated a transmitter on this ex-frequency. By next check 0237 it`s moved again to 9975 USB only. Still same at 0248. Many reports earlier from 2213, no 9980 but until 0116 of 9965/9975, as unID but some think it`s Mix Radio:
https://www.hfunderground.com/board/index.php/topic,161311.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6930 USB, April 5 at 0234, ``Bunny not Funny`` song S9+20, ID as Radio Bunny. Other reports of Easter show:
https://www.hfunderground.com/board/index.php/topic,161323.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6940 USB, April 6 at 0052 UT, pirate music, S9+10/20; announcer says Vibrations by the Beach Boys. Sounds a bit too close to the mike. Only pirate on band now. 0107 still, some music cutting off and on. 0126 offers physical QSLs for reports to [spelt fonetikaly] PINTOSHITNOISE@gmail.com - then another song, S9+20. 0130 I hear only gmail.com mentioned, and another tune. (Now there is another pirate, on 6930 AM.) 0133 retune nothing, but just a pause, and another tune. Many other logs here as `The 412 Music Show`, not an ID I heard:
https://www.hfunderground.com/board/index.php/topic,161416.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6930 AM, April 6 at 0131, pirate talking before audience about ``Liberty Sons, Liberty``, S9+10/20, then discussing strange British words spelt --our. A few logs here say it`s Radio Free Euphonia:
https://www.hfunderground.com/board/index.php/topic,161422.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955 AM, April 6 at 0138, S9+20 of ``pumping`` music. A few minutes later, these say it`s Liquid Radio:
https://www.hfunderground.com/board/index.php/topic,161424.0.html
(Glenn Hauser, OK, WOR)

** OKLAHOMA. 780, April 6 at 1438 UT, KSPI Stillwater is OFF! Leaving a JBA carrier; a bit late after sunrise for anything else like WBBM, KKOH, CHQR, WJAG, so maybe an image or a vestige of KSPI QRP, or just a birdie. Still off at 1843. Under normal conditions I can`t hear the ``Pete 94.3`` translator, which is the ID on 780, back on at next check 1955 into caradio, music OK but modulation dropouts during announcements. But next2 check 2223, off again, exposing a JBA carrier. KSPI is 250 watt daytimer (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 780, April 7 at 1450 UT, KSPI Stillwater not off the air (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 5140 USB, April 8 at 1400 UT, another Wednesday so time for another OK emergency net. Breanna YL in Edmond is NCS this week. Usual procedure, mentions her ham call KM4UJS, but otherwise as WSHM692. Letters in calls always pronounced fonetikaly. Roll call, each one twice unless answering the first time, also mentions locations unlike the other NCS. I compare to previous logs to ensure accuracy. Many of them do not reply.

WQYW443, Beckham County;
WQZT582, Broken Arrow;
WQSY836, Byng EOC;
WNPV700, Durant EOC, Bill ans, loud;
WQYW883, City of Moore EOC;
WNUW216, OKC;
WMUW215, Ponca City EOC, Jason ans, L&C;
KNGR728, Pontotoc County EOC, L&C; says new one is WQUG374, Leflore County, was on 7477 earlier this morning - which I have yet to check;
WPFY721, Seminole EOC, ans;
WNBM839, Stillwater, ans JBA;
WNCH624, Tulsa EOC;

WQUG374, Leflore County, ans L&C. It`s in SE OK around Talihina; in Poteau per:
https://www.radioreference.com/db/browse/ctid/2167/fcc

WNBE830, Missouri State EOC, Jefferson City, Corey ans JBA;
1409, any others? WFES740?, Cameron? County MO, Ernie;
1410, no more, closing net till next week. But then QSOs:
WPFY721 calling WQUG374 Leflore, also with Corey, Jeff City;
1413, WPFY721 clear, but another QSO JBA, WNBE830 with Cameron? MO. In MO there is a town called Cameron, but not a county. Maybe they were saying Camden County? which is north of Lebanon on the way to Osage Beach (Glenn Hauser, OK, WOR)

** OKLAHOMA. Tornado hitting southern OKC: the local TV channels have blown away all commercial network progrqmming all evening. Around 0200 UT Sat Apr 4 I survey which FM stations are plugged into which TV stations. Some may have been missed, but on a portable seem off the air. Some TV coverage is automatically interrupted for NWS warnings.
 89.7 The House, not based in OKC; KFOR
Most other gospel huxters ignoring the crisis!
 91.7 KOSU, NWS only? amid The Spy music
 92.5 KWTV
 93.3 off?
 94.7 KFOR
 96.1 KFOR, later back to music
 96.9 KOCO - the only one on that?
 98.1 off?
 98.9 music
 99.7 Mustang, C&W first, then KOCO?
100.5 off?
101.9 NWS
102.7 KFOR
104.1 KWTV
105.3 deadair
106.7 off?
107.7 KWTV

around 0230 UT I try MW band on portable, not much audible in storm noise but:
1000 KFOR
800 Bott not weather. These are quick & dirty obs; maybe more later (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Follow-up on tornado coverage, UT Sat April 4 from 0325; by now the tornado risk has moved eastward from OKC. BTW, ``Fox 25`` KOKH, was also doing tornado coverage, but did not find any radio stations relaying it; always #4 in the market. RF 24, cable 8 in Enid.
 93.3 is on but weak with KWTV
 93.7 KSPI Stillwater NWS
 96.9 back to talk
 98.1 back to ESPN
 98.9 music

100.5 music
101.9 music
102.7 music
104.1 music
106.7 music
107.7 still on KWTV

1520 KOKC at 0331 dead air, 0332 talk. BTW, I see that the cheater which used to QRM it, KOLM Rochester MN, is gone.

After 0335 UT, forget about late shows on NBC, ABC or CBS -- KFOR, KOCO and KWTV are still wall-to-wall tornadic. They are all reruns anyway on a Friday, especially a holyday. KWTV however sloughs off Colbert/CBS to its secondary outlet, KSBI RF 23, virtual 52, cable 16 in Enid. KFOR and KOCO also own plenty of minor cable channels but I don`t see NBC or ABC moved onto them (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 17, April 2 at 1452 UT, and still April 3 at 0048 UT, K17JN-D, the multi-channel satellator of 3ABN, Enid`s only local TV signal, misidentifying itself as K17JI-D, is off again -- for how many months this time? (Glenn Hauser, OK, WOR)

** OKLAHOMA. RF 17, April 3 at 1507 UT, K17JN-D is back on after missing one day, the multi-channel 3ABN satellator misIDing as K17JI-D; Enid`s only local TV signal (Glenn Hauser, WOR)

** OKLAHOMA. From Doug Smith`s FCC info in April Line Of Sight, WTFDA: ``OK Oklahoma City K17JN 17 (17) Granted move from Enid; 15kw/140m, 35-24-54/97-30-38.``

So it will eventually become invisible in Enid, even if on the air, leaving us with no local TV signals; will it still be multi-channel 3ABN? Another translator, which AFAIK has never really been on air in Enid, at least I`ve not seen it, is moving to Wichita!: ``KS Wichita K25RD 25 (19) Granted move from K32MG Enid, Okla.; 15kw/148m, 37-20-08/97-27-54.`` One might wonder what`s the point?

Apparently preferable to move something licensed than start over from scratch, even tho a different channel and different call. Also different equipment? Some other such license-moves are even trans-continental. One other strange item: KSBI RF23 is already too weak, compared to KFOR RF27, KWTV RF25 and KOKH RF24 OKC which are solid into Enid, but KSBI is normally BAD: ``OK Oklahoma City KSBI 23 (52) Requests power reduction to 540kw. Granted`` (Glenn Hauser, Enid, WOR)

** ROMANIA. 11790, April 5 at 0705, S7/S9 Romanian talk, news? with sounders. This RRI hour is Sundays only from Galbeni to Mideast. Lang ID tip: frequent ``she`` which means ``and`` (Glenn Hauser, OK, WOR)

** SAINT LUCIA. 28420 USB, April 8 at 2219, J69Z, repeating call over and over, even counting 123456 and 123456789, but contacts unheard here. QRZ.com: ``J69Z St Lucia flag St Lucia, ANCLETUS-ERNEST-ERNEST, LA CLERY LC03 201, St Lucia`` His page presents heavy promotion for an antenna he invented (Glenn Hauser, OK, WOR)

** SPAIN. 15520 to ME S9+10/20, 17715 to SAm S9+20/30, and 15500 to NAm also S9+20/30 all VG indistinguishable to the ear, and still no 15390 to Af which AFAIK has never appeared since A26 began. 2200 accurate timesignal vs WWV, SS plugging election coming up for parliament in Andalucia, how to vote remotely - it seems depending on context it is pronounced either Andalúcia or Andalucía.

2201 opening token English from REE/SNR on Wednesdays. First topix to be about the Iran war, how Europe must be less dependent on the USA;

brain cancer research; women winning a 4x4 relay competition. 2203.6 but first the news: US & Iran cease-fire, Pakistan deal; Israel detained a Spanish peacekeeping soldier with UNIFIL in Lebanon. 2206 report from their unique Lebanon correspondentess, where there is no ceasefire; etc. (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, April 3 at 2158, VOT IS & IDs, JBA into UTwente and displaying as 11784.9821 not locking in. But at 2201 when retuned and measured, S7/9+5 into UTwente -- BUT at 2238 recheck, it`s OFF! Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005, April 4 at 2233, poor S7/S9 into UTwente, seems like Turkish music, 2237 talk maybe in English; 2239 familiar sounder; 2247 recognizable multi-lingual ID filler reel, 2254 IS and off. Prop over Europe really degraded; K index at 21 was 3.67, with G2/R2 storms (Glenn Hauser, OK, WOR)

** TURKEY. 11660, Sun Apr 5 at 1637, no VOT signal into UTwente or Hyderabad, India, so no early monitoring of the `Letterbox` this week (Glenn Hauser, OK, WOR)

** TURKEY. 9750.018, Sun Apr 5 at 1840 t/in, VOT English S9+35/50 into UTwente, I catch the second repeat of `Letterbox` which has already started into first one, Ricky Hein in Rapid City SD, as ever, complaining about reception: 11785 at 22-23 is SINPO 11111 with QRM from something on 11780 {Brasil, of course}; and 7275 at 03-04 is no good for him either, SINPO 15111. As usual, Cemre says this has been passed on to Emirler and they are looking into it. 2) Mr. S--Makunda?, Birmingham UK, 11780 {sic!} is 45444 for him. 3) Mohammed Breyel, near KL, Malaysia, for 11660 at 1635, QSL? Again I raise the question whether this is the same DXer known as Timm Breyel there, or are they related? I can`t be sure if Moh. spells surname same way, never seen, only heard it. 4) Chris Malbuff? or something like that, Port Alberni BC, listened via UTwente to 9750 but OTHR QRM from 9740. 5) Siddartha Pattajarjee?, W Bengal, is 24 March celebrated as World TB Day in Turkey? It is observed. How many TB cases, 10-11K per year! 1853 ending, 1854 theme, 1855 multi-lingual ID filler reel (Glenn Hauser, OK, WOR)

** TURKEY. 9870, April 6 at 0057, ME songs S9/+10, then a recognizable VOT themetune. Yes, VOT Spanish to SAm at 00-02. A quick check after 22 Apr 5 found 11785 English not off the air (Glenn Hauser, OK, WOR)

** TURKEY. 11785, April 6 at 2159 and still 2211 direct, no trace of a signal from VOT English. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Apr 7 at 2157, no signal direct from VOT English; on by next check 2207 S7/S9 but with ACI from Brasil 11780. I just sent this to englishdesk@trt.net.tr --

``Cemre, Altho Ricky Hein keeps complaining about reception, there really is a problem with 11785 at 22-23 UT - Brasil on 11780 which can be as strong or stronger in North America. There would be an easy fix to this problem, moving to 11790, or 11795, or 11800, where according to current HFCC and other listings and monitoring, there would be NO interference to TRT, during that hour, no other stations anywhere on those frequencies. I continue to enjoy your Letterbox each Sunday, but I try to listen to one of the earlier repeats via the UTwente remote in Holland.

Another thing you really should change: the sign-on and sign-off announcements which mention only the first time and frequency each day, 1230 UT on 17620. This makes no sense at all when heard on all of the playbacks. Either take the time to mention them all quickly, or

none of them, or rotate them from one day to the next.
Best wishes, Glenn Hauser, Enid, Oklahoma, USA, World of Radio``

Reply at 0733 UT from Seher Cemre TURAN, so maybe also on the next L`box:

``Dear Mr. Hauser, Thank you for your thoughtful and detailed feedback, and for your continued support of our Letterbox program.

We appreciate you pointing out the interference issue on 11785 kHz, as well as your suggestions for alternative frequencies. We've received a similar report from another listener, and we will be conveying these observations and recommendations to Emirler station for their review.

We also take note of your comments regarding the sign-on and sign-off announcements, and will share this with our team for consideration.

Kind regards,
English Desk``

** TURKEY. 11785, Apr 8 at 2157, VOT is on with IS & IDs, S7/S9 direct but insuff. vs much stronger 11780 Brasil (Glenn Hauser, OK, WOR)

** U S A. 407 MCW kHz, April 8 at 0643 UT, dominant NDB, HRU Herington KS has CCI from a JBA understation, hard to distingish, but it`s OOC, 25 watts `Campi`, Natchitoches LA. Per RNA list, period is 7.794 seconds, while HRU is 7.890 (Glenn Hauser, OK, WOR)

** U S A. 410 MCW kHz, April 6 at 0654 UT, BA, 25-watt NDB at BAkalar IN, copiable off-tuned a sesquikHz below in USB to 408.40. Strange name for a town there, Turkish? Really at Columbus IN. No, Wikipedia explains, ``In a formal dedication ceremony held on 13 November 1954, the Atterbury base was renamed Bakalar Air Force Base in honor of First Lieutenant John Edmond Bakalar (1920–1944) of the 353d Fighter Squadron, 354th Fighter Group. Bakalar, a Hammond, Indiana, native was killed in action 1 September 1944, over France when his North American P-51D-5 Mustang (AAF Ser. No. 44-13895) crashed.[19][20] His decorations and awards included the Distinguished Service Cross and the Purple Heart, both awarded posthumously, and the Air Medal with six Oak Leaf Clusters.[4]`` - each DX log a potential learning experience! (Glenn Hauser, OK, WOR)

** U S A. 414 MCW kHz, April 6 at 0656 UT, GRN, 25 watt NDB at GoRdoN NE, JBA vs high local line noise level which abates a bit on higher beaconband frequencies, while few audible below 400, even fewer below 300. Also a carrier on 419 (Glenn Hauser, OK, WOR)

** U S A. 8992 USB, April 7 at 1853, ``I say again: MTVHHIT6...`` fonetikaly, 1858 ``this is out[?], out``-- ``ID sounded like ``out`` or something rhyming; crypto message exercise (Glenn Hauser, OK, WOR)

Thanks this week to Mike Cooper, Stone Mountain GA, for a generous check on a US bank to: Glenn Hauser, PO Box 1684, Enid OK 73702.

One my also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: NOT confirmed what was first SW airing, Friday April 3 at 1300 on WRMI 15770; instead, SMTV! WOR is still on the websked for System D at this time, so error or permanent change? Dave Kenny also noted this in England:

``WRMI was carrying Supreme Master at 1300-1330 utc today (Friday) on 15770, so there was no first airing of World of Radio at this long-established time. Not sure if this is schedule change or due to the recent power outages at WRMI? 73s Dave, Caversham, UK`` - SMTV relays are normally at least an hour at a time; something else at 1330? Next:

2030 UT Friday IRRS SW via AM Italia 1323;
2200 UT Friday WRMI 9955 to SSE [also web-, phonecast];
2230 UT Friday SW Radio, Germany 3975;
0300 UT Saturday WTWW 5085 [irregular];

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: confirmed Friday April 3 at 2035 the 2030 on IRRS SW via AM Italia 1322.996+, S7/S9 into UTwente.

Also confirmed Friday April 3 at 2200 on WRMI 9955, S9/+20 into Georgia SDR. Since not aired at 1300, this becomes the first SW airing, at least this week.

Also confirmed Friday April 3 at 2239 the 2230 on Shortwave Radio Gold, Germany, 3975.003-, JBA into UTwente, S8/S9 into recommended Barney`s Bedford UK SDR.

From his hospital bed after surgery, Bob Biermann has diligently loaded WOR 2341 remotely into the automation for WTWW, should 5085 be on air UT Saturday at 0300. Then George McClintock notifies me at 0021 UT Sat Apr 4 that 5085 *is* on tonight -- but not hearing it yet by 0100 or even 0200, something else wrong, or not to turn on much before 0300 WOR time? 5085 finally came on about 0215. George had a problem getting the live-in transmitter site family to turn it on! But WOR should run at 0300. Next:

0300 UT Saturday WTWW 5085 [irregular];
0930 UT Saturday WRMI 7570 to WNW;

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: confirmed UT Saturday April 4 at 0300 on WTWW 5085, many tnx to Bob Biermann for getting it loaded remotely into the automation, and George McClintock for getting the operators to turn on that transmitter. After BB`s own

`Truth2Ponder`, 0259 ID as Ancient Word Radio, WTWW, S9+20/35 into Georgia SDR; a bit rough into WOR transition and some audio dropouts at first, but stayed on air, then with 0329 music and turnoff at 0331*.

Also confirmed Saturday April 4 at 0957 the 0930 on WRMI 7570, still wrongly shown as 9455 along with many other programs on the WRMI skedgrid.

Not confirmed Sat Apr 4 at 1450 on SW Radio Gold, Germany into UTwente, instead Texas Radio Shortwave about Sly Stone, as now shown on the SWRG program sked for this date at 1400-1500. On Sat Apr 11, WOR should be back at 1430. TRSW preemption is monthly?

Confirmed Saturday April 4 at 1530 on WRMI 9955, S9+10 into Knoxville SDR.

Also confirmed Saturday April 4 at 1600 on WRN via WRMI 9395, S9+5/15 into Knoxville; immediately preceded by a plug/commercial voiced by Jeff for DXtra.com. Listed as // 7730, but apparently still off the air, not a trace into Miramar which used to get it, nor any other Florida KiwiSDR. Geez, I still had this at 1700 on the lineup in last report. Hope I did not miss any other timeshifts. Next:

1930vUT Saturday WA0RCR 1860-AM [1900/2100];
1930 UT Saturday SW Radio, Germany 3975;
1930 UT Saturday WRN via WRMI 9395 to NNW;
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 17790 to SSE;
2230 UT Saturday WRMI 15770 to NE;
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
0630 UT Sunday WRN via WRMI 5850 to NE;
0630 UT Sunday WRN via WRMI 7780 to SW;
0930 UT Sunday IRRS SW 9510 via Romania;

2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: confirmed Saturday April 4 at 1935 the now 1930 on WRN via WRMI 9395, S5/S7 into Maryland SDR.

As usual and I fear for the rest of spring/summer, cannot confirm nominal 1930 Sat Apr 4 on WA0RCR, 1860 AM, MO, as none of the remotes nearby, not even the one in St Louis, can hear it above the rather

extreme daytime noise levels.

Also confirmed Saturday April 4 at 2000 on WRN Europe stream.

Also confirmed Saturday April 4 at 2100 on WRMI 9395, immediately following a DXtra.com commercial by Jeff White. Note: an example of why I open and close each WOR with ``standard disclaimer`` -- I have nothing to do with adjacent commercials; or any other opinions.

Also confirmed Saturday April 4 at 2230 on WRMI 15770, S7/9+5, and 17790, S9+10, both into Maryland SDR.

Also confirmed Saturday April 4 at 2357 the 2330 on IRRS/NEXUS/IPAR/IBA webcast only, an hour earlier than during winter time.

Also confirmed UT Sunday April 5 at 0314 on WA0RCR, 1860 AM, MO, already a few minutes into; ARRL news had started at 0301, S9+10, so wasn`t expecting WOR earlier than 0315.

Also confirmed Sunday April 5 at 0656 the 0630 on WRN via WRMI, 5850, S9+30 and 7780, S7/9+5, but no others.

Not confirmed Sunday April 5 at 0930 on IRRS via Romania, 9510; nor was expecting to but happened to awaken so checked. It was confirmed last week by Rumen Pankov, Bulgaria.

Also confirmed Sunday April 5 at 1900 on IRRS SW via AM Italia, 1322.996-, S9 into UTwente, immediately after 7290 s/off announcement. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2130 UT Sunday SW Radio, Germany 3975;
2300 UT Monday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: Also confirmed again one hour later, Sunday April 5 at 2000 on IRRS SW via AM Italia, 1322.996-, S9 into UTwente.

Also confirmed Sunday April 5 at 2155 the 2130 on SW Radio Gold, Germany, 3975.002-, S9/+5 into UTwente.

Also confirmed Sunday April 5 at 2300 on WRMI 9395, S9+10/20 into Maryland SDR.

Also confirmed Sunday April 5 at 2330 on WRMI 9455, S9+5/15 into Maryland SDR.

Also confirmed UT Monday April 6 at 0030 on WRMI 7780, S9/+10 into S Texas SDR.

Also confirmed UT Monday April 6 from 0305 on Area 51 webcast only; at 0256, someshow on WBCQ 5130 - 89 Hz = 5129.911 kHz thought they had 7 minutes remaining, no hurry to wrap; 0258 something about Subgenius and Mt Rushmore; bill in Missouri to make blowing nose in restaurant subject to $200 fine. But chopped at 0300 for WBCQ s/off. Then seemed/pretended? to be KNON. Offered subgenius info from PO Box 140306, Dallas TX 75214; at 0301 said they had 3 more minutes. KNON is a real station with `variety` format in Dallas on 89.3, ex-KCBI which was also on SW, remember? Anyhow; next WORs:

1930 UT Monday SW Radio, Germany 3975 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: confirmed Monday April 6 at 1930 on SW Radio Gold, Germany, 6160.002- S9+15 and 3975.002+ S9+5/10 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: confirmed UT Tuesday April 7 at 0330 on WRMI 7780, S9+5/40 into S Texas SDR. Again immediately preceded by an unID interview in Spanish chopped at 0330.

Also confirmed Tuesday April 7 at 1305 the 1300 on WRMI 9955, S9 direct.

Also confirmed Tuesday April 7 at 1408 the 1400 on WRMI 9955, S7 direct.

Also confirmed Tuesday April 7 at 2000 on IRRS SW via AM Italia, 1322.995+, S8/S9 into UTwente. Next:

2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 6160;

2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2341 monitoring: confirmed Tuesday April 7 at 2230 on WRMI 9955, S9+20 direct preceded by Israeli? song.

Also confirmed Tuesday April 7 at 2345 the 2330 on SW Radio Gold, Germany, 3975.002, S9 into UTwente.

Also confirmed UT Wednesday April 8 at 0030 on WRMI 9395, S9+30/35 into Georgia SDR.

Also confirmed Wednesday April 8 at 1930 on SW Radio Gold, Germany, 6160.000, S7 and 3975.001+, S9+5 into UTwente. 6160 has RTTYditty INTRUDER on plus side but evitable by narrow bandwidth.

Also confirmed Wednesday April 8 at 2100 on WBCQ 7490 -48 Hz = 7489.952, S7/S9 into Maryland SDR; TOMBS chopped off at 2059 for WBCQ promo, ID, 2100 WOR 2341.

Also confirmed Wednesday April 8 at 2330 on WRMI 9395, S9+15/20 direct. After ID, interjexion of ``Hello, babe ---`` before WOR playback. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.

Thanks this week to Mike Cooper, Stone Mountain GA, for a generous check on a US bank to: Glenn Hauser, PO Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. 5907.1 & 5932.9 approx., matching spurs from 5920 WTWW +/- 12.9 kHz, so it`s the same transmitter which spews these from 5085 and sometimes 9930. The upper one is severely QRMed by 5935 WWCR splash (Glenn Hauser, OK, WOR)

** U S A. 9917.16 & 9942.84 approx., matching spurs out of 9930 WTWW with TOMBS, some modulation, April 5 at 1444. This is the #2 transmitter instead of the usual #1 which doesn`t provide such spurs. These are only S7/S9 while fundamental 9930 is S9+40/45. George says #1 was down due to a water leak, but soon to be resumed (Glenn Hauser, OK, WOR)

** U S A. 9930, April 6 at 1854, WTWW S9+40 with overmodulation/distortion, making TOMBS praise songs even more off-putting than usual; also with the spurs plus/minus ~12.9 kHz (Glenn Hauser, OK, WOR)

** U S A. 17790, April 2 at 1833, S6/S7 of dead air from WRMI; while 15770 only S7/S8 has live air, or at least barely modulated? (Glenn Hauser, OK, WOR)

** U S A. 9455, April 3 at 2159, this WRMI is OFF, no signal direct nor into Georgia SDR; yet 9955 is OK with WOR. 9455 still off at further chex, until 2338 UT ON with stupid ballgame in Spanish. Supposedly RAE in Portuguese this hour on Fridays, but this must be R. Nacional domestic relay; indeed such an ID during game at 2342. Chop

at 2359.5 for WRMI ID, DA and then something else (Glenn Hauser, OK, WOR) See also ARGENTINA [non]

** U S A. 5800, UT Sun Apr 5 at 0216, WRMI-11 talking about ICOM America and ARRL; i.e. `CQ Calling` show on System D (Glenn Hauser, OK, WOR)

** U S A. 7570, April 6 at 0054, this WRMI in `Top of Hour` IS & ID preamble, while WOR is running on 7780; and 7730 is absent (Glenn Hauser, OK, WOR)

** U S A. 9395, April 8 at 2258, WRMI with `Truth 2 Ponder` outro, S9+10/20 but very undermodulated; while Bob Biermann`s voice on the WRMI IS & IDs on 9455 is fully modulated; timesignal at 2300 is 6 seconds late compared to WWV -- it`s not a true TS, but sound-effect VORW starts his show with, implying accuracy! John starts by apologizing for being more informal and opinionated than usual as he launches into a chronology of the Iran war (Glenn Hauser, OK, WOR)

** U S A. 5130 -66 Hz = 5129.934, Apr 3 at 2355, this WBCQ is on with `The Planet` IS & ID loop, S9+15/20; same on 6160 -72 Hz = 6159.928, S9+10/20. Running both of those foreshadows a new AAAWWW be imminent. 3265 as usual not on, nor 9330. 7490 -54 Hz = 7489.946 with FKB, S9+18/33, all into Vermont SDR. I keep listening to 7490-, from 0000 UT Sat Apr 4, `WTO` theme, first interjexion ``Heart``; later, starts with ``Heart and soul of electronic media, ladies and gentlemen, is good old radio...``. First talking about college radio, carrier current, some still exist, then 10 watts on non-comm educational band 88.1-91.9 MHz, seeing a revival of that. 0021 datestamp as 3 April YOOLF 2026, trimulcasting on 7, 6, 5. 0032 song. 0040 has a request from Dominic for a song by Tom Petty. Goes over some of the great programs on BCQ, times EDT of course: Wed 10-11 pm, Hello World Radio. Thu 10-11 pm Upstream. Sun 5-6 pm Marion`s Attic. Sun 8-9 pm Let There Be Light. Music? Tue 7-8 pm Alan Sane. Tue 8-9 pm Transmitter 42. Hal Turner left, don`t know why, replaced by Living By the Sword, now gone too? Keeping 9-10 pm M-F on 7490 open, wanting a 5-day strip of a music or news show. Meanwhile filling with AAAWWW repeats; but Jason at Monticello is welcome to drop in some of his `Rockwave` shows. World of Radio: ``Glenn Hauser is still chugging along, God bless you``, Wed 5 pm. Ham show Thu at 5-7 pm. Behaviour Night, Fri 5-6 pm with Sir Scratchy. 0051 finally plays the Tom Petty song request, ``The Last DJ``. 0053 datestamp again 3 April YOOLF 2026, from Deland of Fla where it`s 73 degrees, humidity 75%. 0059 prayer, ID. 0100 music which at 0101 is named Rockwave (Glenn Hauser, OK, WOR)

** U S A. 9265, Apr 5 at 0228, no signal from WINB; rather early to be off? Own sked shows `Moment of Truth` starting at 0230 for a sesquihour, then last program `Worship at Home` from 0400 with no endtime. Maybe it`s an Easter thing. 9275 also off: After Saturday sunset = UT Sunday, their Sabbath is over, but WMLK is never in a hurry to get working, back onto the air (Glenn Hauser, OK, WOR)

** U S A. 7505, April 8 at 0621, WRNO still on in English, S9+20/35 direct (Glenn Hauser, OK, WOR)

** U S A. 890, April 4 at 0609 UT, weak signals here, not sure what, but something is very wrong at WLS Chicago, as the other major clears, 670, 720 and 780 are inbooming as usual (Glenn Hauser, OK, WOR)

** U S A. 940 kHz, April 7 at 0040 UT, British-accented gospel huxter on huge signal we hear neither in full day nor full night. Of the nearest ones, this must be KPSZ Des Moines IA, the only REL format, U4 10/5 kW, ``Hope 940``. I remember it as KIOA up until 1996. Day pattern is skewed toward the SW, while night pattern has tight major lobe to WNW, notch to the SW.

https://radio-locator.com/cgi-bin/pat?call=KPSZ&service=AM&h=N
Weakened a bit around 0045, which happens to be the exact SS time
today (Glenn Hauser, OK, WOR)

** U S A. Re 970v: ``KVWM continues to drift. Last night it was on
968.114 with cx somewhat auroral. Mostly just a carrier, but briefly
had decent audio 0505 UT with ads for businesses in Show Low and
Snowflake (a town about 20 miles north of Show Low) and at 0707 with
Coast to Coast. It's probably worth watching for in the Midwest. Bruce
Portzer, WA, April 4, IRCA`` (via Glenn Hauser, OK, WOR)

** U S A. 968.065 approx., April 8 at 0623 UT, JBA carrier, presumably
KVWM Show Low AZ, which has been drifting off-frequency from 970. John
Johnson, Mesa AZ, posted to IRCA iog April 7: ``KVWM 970 Show Low,
Arizona continues to be way off frequency. See Photo. The carrier on
the left is KVWM and the carrier right on 970 is XEJ as seen from
Phoenix. 73, John`` i.e. just about 968.0 kHz (Glenn Hauser, OK, WOR)

** U S A. Re 1440, KPUR activated: ``Glenn, I've listened to the
stream, and KPUR's slogan is indeed "Texas 95-7 The Armadillo". I have
amended the WTFDA database to reflect that. I'm one of many database
editors looking to keep it as up to date as possible, so appreciate
the info in your post. KPUR announcers actually pronounce
it 'Armadillah' and the web site says Armadillo. Thanks, Saul
Chernos`` (via Glenn Hauser, OK, WOR)

** U S A. 1690 kHz, April 6 at 0659 UT, WVON Chicago ID with
disclaimer (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, April 4 at 0615 UT, incredibly half-speed and
half-pitch music and talk, hard to understand or even whether it`s
Spanish but I think English. Must be KKLF Richardson TX which is
dominant when on. Is this reel-to-reel tape at 7.5 ips mistakenly
played at 3.75? It could be even less than half, hard to tell. Of
course it`s now possible to speed up or slow down recorded playbacks
while maintaining the proper pitch! This goes on and on past 0633. I
hear San Antonio mentioned at 0620. Maybe being fed thus out of
Jalapeño group flagship KEDA 1540? Really incredible, no one paying
attention, but me? (Glenn Hauser, OK, WOR)

** VENEZUELA. 4940, April 4 at 0335, Estación 4940 is back on air but
JBA, not unusual (Glenn Hauser, OK, WOR)

** VENEZUELA. 4940, April 2 at 0700, no signal from Estación 4940.
Normally it`s on overnight, the only S American on 60m, and not
relogged (Glenn Hauser, OK, WOR)

** VENEZUELA. 4940, regarding Estación 4940 missing April 2, I did not
get it checked April 3 around 0630, but note that altho some are
uncertain of its location, Colombia or Venezuela, WRTH 2026 page 597
lists it as V`s only SW station, but ``unlicensed``, in Rincón Hondo,
1 kW at 23-10 UT, no callsign. Location is on the map, page 53
(However there are so many FM stations that only those in Caracas can
be in the book.) (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.475 approx., April 7 at 0643 UT, the mystery JBA
carrier hetting 810 WHB, on its slightly variable frequency. Not
always audible (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1190 kHz, April 8 at 0630 UT, Spanish dominates, 0632
``Radio La B``? ID; 0700+, Radio La Ley - pretty sure of that slogan.
In IRCA Mex log, no 1190 stations with that name, nor in NRC AM Log of
UStations. WTFDA FMDB has loads of US and some Mexican FMs called La
Ley, which means law, but nothing correlating with 1190. Surely no
English/American station would call itself ``The Law`` -- what`s with

the SS? XECT Monterrey or XEPZ Juárez would be most likely but no such name known for them.

To rule out XECT, I monitor it via the Monterrey SDR from 1720 UT - just gospel huxtering, and believe it or not, at 1900 ID as XEPRS 1090 in BCN! I double check my hookup, and yes, it`s really 1190 in Mty. IRCA Mexican Log does note this under 1190, and also under 1090: ``1090 XEPRS BC Rosarito 50000 50000 La Voz 24h REL No FM (XHPRS 105.7FM is not co-owned). // XECT 1190AM and sometimes XEITE 830AM`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1440+ & 1460-, Apr 5 at 0257 UT bandscan, again hearing those matching JBA carriers implying they are spurs out of one of the 160+ USA 1450 stations. One I measure approx. 1458.4. Wonder if Tim Hall has found anything further about this from his Border Inn recordings (Glenn Hauser,OK, WOR)

Hi Glenn, After two or three unusually busy weeks, I'm back to reviewing my recordings, and have finally started to do what I should have done when I first noticed these spurs: I've started a simple grid (antennas on one axis, hour-of-day on the other), and will start making note of where these carriers have been appearing in my recordings. My initial guess is that the spurs will show up (with good strength) in so many of my recordings as to be of limited use, but perhaps they will be missing from a few wires and/or hours of day, and give us a little clue. Conditions were very favorable to northern states that weekend, and very unfavorable to southern states, so that may pose a challenge as well. I had northern stations all over my southern wires in these recordings.

By far the most consistently present station on 1450 across all of my recordings was KBFS {Belle Fourche SD}, so they remain my initial prime suspect; however, the fact that the spurs are present on so many of my recordings could also support your preliminary DF indicating the station might be closer to me, perhaps in UT or WY. It may take a while for me to gather enough data to be useful, but I will keep you posted when I finally have a good sample.

One interesting experiment (which I should also try here at home if I ever get the time) would be to check for the spurs shortly before the top of the hour, then if they are present, tune to 1450 and see if you hear KBFS' "Close Encounters" theme (5 notes) around the top of the hour. Those 5 notes pierce through the interference like a mini DX test at the top of every hour. 73 Tim Hall, April 6 (via Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1590, April 6 at 0702 UT, local news mentions Scott County, no further clues. There are 11 states with a Scott County, many of them with a 1590, but would have to check each one whether a 1590 be local, near or far. Yet most likely my closest, Kansas, county in the west, KVGB Great Bend near the center, U2 5/5 kW. I was checking whether `Ambiente Clásico` WCGO Evanston IL were still audible, as it`s authorized to double-decimate night power from 2.5 kW to 24 watts! (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7000 LSB, April 6 at 0134, 2-way in Spanish, ``probando`` - a wayward ham? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9177-9201 approx, April 5 at 0706, huge wideband multi-carrier, multi-tones beating against each other, peaking S9+20 amid, but totally cutting off and on. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9684, Apr 5 at 0232, RTTY warble INTRUDING. At 0249, JBA carrier with Doppler flutter, maybe the same RTTY now idling (Glenn

Hauser, OK, WOR)

UNIDENTIFIED. 15150, April 8 at 2226, weak signal in Portuguese? Nothing listed now in EiBi, HFCC or Aoki (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21645, 21725, 25695, April 5 at 0210-0212 JBA carriers with Doppler flutter. None of these in A26 HFCC, so I bet they be CNR1 jammers vs Sound of Hope. Aoki and EiBi agree at least about 21645. This was as I was getting R. Japan on 21500, q.v. See also numerous ChiComs on 17 MHz band (Glenn Hauser, OK, WOR)
